

CLOTH / SCREEN / PAPER

CLOTH - For general purpose sanding where flexibility and tear-resistance are most important. Cloth backing provides increased strength and durability.

- hand strapping
- blending machine tool marks
- light deburring
- cleaning pipe & tubing

SCREEN - For sanding where life and load resistance are most important. Coated on both sides with silicon carbide abrasive, the open mesh design also allows you to rinse and reuse.

- sanding plastic pipe prior to gluing
- preparing copper pipe and fittings prior to soldering
- sanding softer materials where loading is a major problem such as plaster, wood, drywall, brass, etc.

PAPER - For fast, easy sanding when long life and consistent finish are most important. High strength latex backing offers superior strength and reduced edge wear. PSA backing for easy on/off.

- preparing primed and painted surfaces
- bare wood sanding
